From Dr. Luzzatto.

Beifolien angefangen so render into english the two excellent articles, contained in the inclosed letter, viz. Beth Shein & Ophai Marhum. But I confess, I am afraid I cannot make them palatable to the english reader by translating them verbally.

Pray let me know your opinion on the subject & favor me with your kind advice thereon.

What do you think if I were to give it in hebrew as a specimen of the author's style? There will be so many latin, italian & german quotations in the text, of which this will form a part, that it will not appear strange. As I do intend to act by your advice, you forego the danger attending generally the dispensation of that commodity
